ABOUT THE VINSON INSTITUTE

For more than 90 years, the Carl Vinson Institute of Government has worked with public officials throughout Georgia and around the world to improve governance and people's lives. From Georgia's early days as a largely agrarian state with a modest population to its modern-day status as a national and international force in business, industry, and politics with a population of almost 10 million, the Institute has helped government leaders navigate change and forge strong directions for a better Georgia.

Drawing upon the knowledge and resources of the University of Georgia, the Institute provides education, assistance, research, policy analysis, and publications to assist public officials in serving citizens in Georgia and throughout the world.

TRAINING AND DEVELOPMENT

Public officials and staff gain skills and knowledge to do a challenging job better through hundreds of training and development programs.

ASSISTANCE

Practical, customized services and objective research for governments and communities help anticipate needs and improve operations, whether those services take the form of helping a city solve its budget problems to aiding a police department in redefining its job classifications.

COMMUNICATIONS

The Office of Communications is responsible for conveying information about the full range of services provided by the Institute of Government to current and potential clients and the general public through such activities as creating and maintaining the website, handling media inquiries, producing materials, and coordinating marketing and public relations. The office also coordinates publication and distribution of relevant Institute research.

STUDENT OUTREACH

Graduate and undergraduate students can enrich their educations and gain hands-on experience through a variety of programs.

PUBLICATIONS

Publications support the Institute's public policy research, assistance, and communications activities related to promoting excellence in government. These include downloads of research reports and policy briefs, an electronic newsletter, and more.

INTERNATIONAL PROGRAMS

Governments transitioning to democratic systems worldwide can build governance capacity through training that emphasizes the development of participatory, responsive, transparent, and efficient governments.
